

# Nightingale Class Family

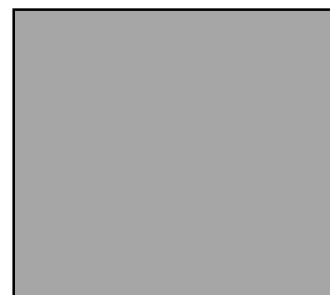

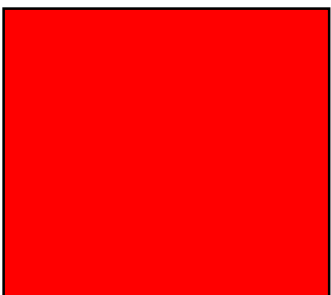

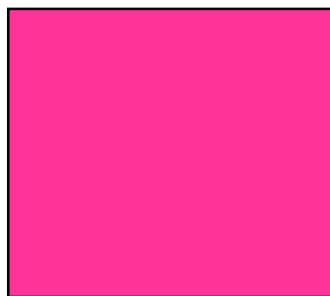

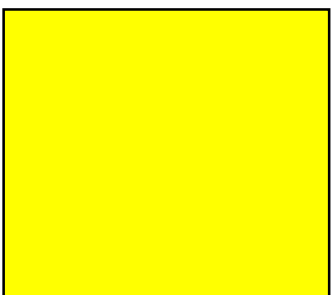

## Learning:

Core Knowledge

## Colour Hunt

Can you go on a colour hunt? See which **natural** colours you can find in the garden and tick them off as you go!

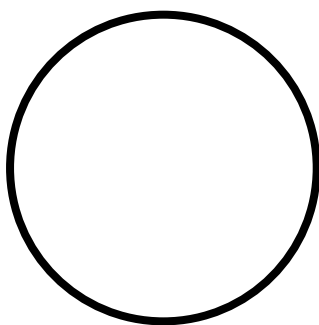

## Worms

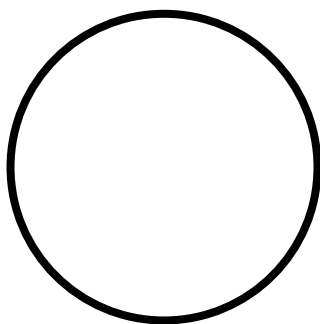

Worms like to live in the soil. They come to the surface of the soil when it rains. Can you search for worms? See how many you can find of each colour!

How many worms did you find?

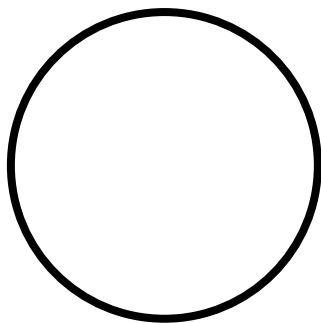

Red worms

Blue worms

Yellow worms

Make a minibeast out of natural resources.

First, decide which minibeast you would like to create.

Second, take a pot to collect your natural resources.

Third, find a space to make your 'natural minibeast'.

## Minibeasts

Visit the minibeast book and iPad corner! Can you name some of the minibeasts? Can you find out some facts about one type of minibeast?

Minibeast : \_\_\_\_\_

Facts:

1. \_\_\_\_\_

2. \_\_\_\_\_

3. \_\_\_\_\_

4. \_\_\_\_\_

Check the garden and the minibeast hotel. Can you spot any minibeasts?

## Flower Spotting

Look at the pictures of the flowers below. Can you spot these flowers in the garden? Tick the flowers that you find.

Extension

Draw a picture of your favourite flower in the box below.
