

July 2024

Dear parents, carers and guardians,

As another school year ends, and planning is well underway for next year, it feels like a great time to thank all parents, carers and guardians for your continued support for the school and its staff.

Throughout the year there has been a real sense of teamwork and community spirit, from the various cake sales, sports days, family learning and gardening sessions, to the determination shown during the very wet but well attended summer fair.

The governors visit Floreat at various times throughout the year, and it has been a real joy to observe the children embodying the Floreat values, mostly notably using their confident voices and demonstrating perseverance in lessons and assemblies.

Throughout our termly board meetings it has been wonderful to hear about the many achievements and academic successes the children have made this year. These successes would not have been possible without the strong partnership built between the school and home; the teachers at Floreat strongly believe that children flourish when both the family and the school are working together, and this has been evidenced throughout the year.

We end 23/24 full of pride for all the children that have taken part in the flurry of end of term concerts and performances and thank the community for taking time out to attend. Another highlight for the year was the school receiving the best possible Ofsted outcome based on an ungraded inspection a few days

into the Autumn term, where the report noted that “the evidence gathered suggests that the inspection grade might be outstanding if a graded inspection were carried out now”. The graded inspection is due to take place anytime from September 2024 onwards.

We also end the year celebrating our most impressive SATs* results to date; a huge well done to the year 6 children, teachers and families; wishing you all the very best in your new secondary schools. To everyone else, thank you again for your ongoing support, it couldn't have been achieved without you.

Enjoy your summer break, stay safe and the governors look forward to welcoming you and the teachers back in September.

Deon Boakye

Chair of the board of governors

*SATs are standardised assessment tests administered by primary schools in England to children in Year 2 and Year 6 to check their educational progress.
