The cut-off slip below is provided so you can continue practising at home.

fire plastic mindful ocean diary reduce reuse recycle
London leaflet

Name:

In Mind UP this term we have been looking into the different parts of the brain. We have been able to reflect on the three main parts and what impact our breathing has to calm and control our brain. Can you label the parts of the brain below by drawing the three animals in the white spaces? It would be brilliant if you could show members of your family using your hand where the three parts are located. If you remember what the names of the three parts are can you also label them accordingly?
